

MMM SCHOOL OF ECHOCARDIOGRAPHY

41st ECHO TRAINING PROGRAMME

(03.10.2017 to 06.10.2017)

Institute of Cardio-vascular Diseases

Madras Medical Mission

The Institute of Cardiovascular Diseases, Madras Medical Mission is conducting Echocardiography training programs. This program will help you enhance your professional skills in diagnosis through cardiac imaging. These courses are designed for practitioners who want to improve on their skills and also experts who are interested to get the nuances of complex Echocardiography.

This course is only for Indian doctors.

This basic four days program would introduce the basics of Trans-thoracic Echocardiography including scanning techniques M-Mode, 2D Echo, Doppler techniques and an exposure to most currently encountered Cardiac disorders. It will also cover hands on training, paediatric echo and TEE as well. Our next course is scheduled on March 2018
